Oceans Past Platform Conference May 23-24, Trinity College Dublin

Bayscapes: Shaping the Coastal Interface through Time

The European Oceans Past Platform is dedicated to marine environmental history and the study of ocean and coastal management through time. The conference is held in collaboration with the Centre for Environmental Humanities at Trinity College Dublin, and celebrates Dublin Bay being designated a UNESCO Biosphere. Papers will explore both local and European perspectives and address the following core themes:

- Intervention points and best practice for managing marine heritage
- Changing inshore ecologies and human impacts
- Shaping bayscapes through time
- Coastal and underwater Maritime Cultural Heritage
